

# Harshit Khanna

Intern

9311246654 | harshitkhanna465@gmail.com | <https://www.linkedin.com/in/harshitkhanna-152160256>

## SUMMARY

Dedicated Computer Science and Engineering student at SRM University with strong skills in software development, algorithms, and data structures. Eager to apply technical and analytical expertise in a challenging internship or full-time role

## EXPERIENCE

Python Developer Intern

**Codxo** (Online) | *[sept, 2024]*

- Built a Python-based alarm clock using datetime, time, and playsound modules.
- Gained hands-on experience in writing clean, functional code and working on real-world logic.

**FuturixAI** (Online) | *[August, 2024]*

- Developed a face recognition app using Python and OpenCV.
- Worked on real-time detection and recognition features using camera input.

## PROJECTS

### REAL TIME FACE DETECTOR

- Developed a real-time face recognition-based automated student attendance system using computer vision.
- Focused on frontal, upright facial image detection to ensure high recognition accuracy.
- Enabled live video stream processing for real-time attendance tracking.
- Designed for use in educational and security-focused applications.

## EDUCATION

SRM Institute of Science and Technology, Sonipat  
Bachelor of Technology in  
Computer Science and Engineering

2022-2026

## SKILLS

**Version control:** Git, GitHub

**Programming Languages:** Python, SQL, Java, C,

**Technology:** Jupyter, Visual Studio Code, MySQL

**Libraries:** pandas, Flask, NumPy, Matplotlib
